

CHEM 106 Spring 2019

Online Homework – Sapling Learning

Purchase

You can purchase the online homework in one of two ways. You can purchase a physical package in the bookstore or purchase online when you register. You can take a free trial, but you must purchase at the end of the trial period or use a code from the bookstore package in order to continue your homework.

Registration

You can create a new account with username/password or use Facebook. I DO NOT recommend using Facebook considering recent privacy violations. Also, do not create multiple Sapling accounts. Be sure to write down your username and password in a safe place when you create your account.

Doing Your Homework

The online homework is due every Wednesday night (except during midterm and final exam). Each homework assignment consists of 15-30 problems where you may lose points on each missed attempt. Hints and helpful advice is provided for common mistakes. Students who do their homework usually get at least 80% on their homework. If a problem is frustrating, avoid repeated attempts, and move on to another problem. Clear your mind, ask for help, get some food, then return to the troubling question. Avoid beginning your homework right before the due date. It's best to work out problems on paper then enter your answers.

Late Credit

Any unfinished problems after the due date qualify for partial credit (loss of 25% credit per day).

Homework Help

You can always message me through remind but it is helpful if you send a picture of your paperwork as I can quickly spot a mistake and get you back on track. If I am not available, you might explore YouTube videos, or do an internet search in general with the key words such as "solving density problems."

Technical Problems

Sapling currently uses Flash which is not being widely supported. The most important recommendation I give is to 1) use Chrome browser and 2) be sure Flash is enabled on the Sapling website. You can do that by clicking the (i) to the left of the address and enable flash. Nearly all technical problems are solved by this action. If you continue to have technical problems, send an email to support@saplinglearning.com explaining the issue. The Sapling support team should be able to help with support issues.

Spring 2019 CHEM 106 Homework Assignments (mostly online)

Week	Assignment	Available Date	Due Date
1	Practice Assignment	Monday, January 14	Tuesday, January 22
1	Math Review	Monday, January 14	Tuesday, January 22
2	HW1&2a	Monday, January 14	Wednesday, January 23
3	HW2b&3	Wednesday, January 16	Wednesday, January 30
4	HW4	Wednesday, January 23	Wednesday, February 06
5	HW11	Wednesday, January 30	Wednesday, February 13
6	HW12	Wednesday, February 6	Wednesday, February 20
7	HW5a	Wednesday, February 13	Wednesday, February 27
8	Study Questions	(paper assignment)	Wednesday, March 06 (in class)
9	HW5b	Wednesday, February 27	Wednesday, March 13
10	HW6&7	Wednesday, March 06	Wednesday, March 20
11	HW8	Wednesday, March 13	Wednesday, March 27
12	HW9	Wednesday, March 20	Wednesday, April 3
13	HW13	Wednesday, March 27	Wednesday, April 10
14	HW14	Wednesday, April 3	Wednesday, April 17
15	HW15	Wednesday, April 10	Wednesday, April 24
